

CITY OF BENBROOK
2009 Capital Improvements Program (CIP)
Status Report
June 28, 2010

1. Timber Creek Channel Project (Station 0+00 to 36+00)

Description..... This project consists of widening the channel of Timber Creek from its confluence with the Clear Fork Trinity River to a point approximately 3,600 feet upstream. The project also includes the enlargement and relocation of several water and sewer lines. The project removed over 65 homes from the 100-year floodplain.

Status..... Complete.

Final Construction
Cost \$829,147.60

2. Timber Creek Culvert at Winscott Road

Description..... This project consists of enlarging the Timber Creek culvert under Winscott Road to provide adequate capacity to carry the 100-year storm. Upon completion, the project removed several homes from the 100-year floodplain.

Status..... Complete.

Final Construction
Cost \$168,543.20

3. Plantation East Creek Drainage Improvements

Description..... This project consists of enlarging the Plantation East Creek channel between Tara Drive and Springbranch Drive to carry the remaining portion of the 100-year flood not contained by the underground box culvert. Upon completion, the project removed several homes from the 100-year floodplain.

Status..... Complete

Final Construction
Cost..... \$1,152,682.00

4. Plantation West Creek Drainage Improvements

Description..... This project consists of widening the channel of Plantation West Creek from its confluence with Mary's Creek upstream to a point north of the Mary's Creek Drive low water crossing. The purpose of the project is to contain the 100-year flood and prevent street flooding that is occurring in the vicinity of Twilight Park. This project removed several homes from the 100-year floodplain.

Status..... Complete

Final Construction
Cost..... \$2,050,472.48

5. Willow Bend Creek Channel Improvements

Description..... This project consists of lining a portion of Willow Bend Creek downstream of Llano Avenue. This project was combined with the Plantation West Creek project.

Status..... Complete

Final Construction
Cost Included in Plantation West Creek

6. Community Development Block Grant Project

Description..... The 35th Year CDBG project consists of installing sidewalk on Usher Street, from Childers to Cozby North Street and the alley from Wade Hampton to Warden. Funding is from the U.S. Department of Housing and Urban Development and the contract is administered by Tarrant County.

Status..... Complete

Contract Amount \$79,921.25
